

## Individual Web Design Project

### Assignment:

- Create a website for yourself. Make a portfolio page that is meant to inform people about yourself.
- Assignment is due Fri Aug 16, 2019

### Specs:

- The project must follow certain specifications:
  - 2+ pages
  - Styled with CSS and/or Bootstrap (I want to see an appealing website)
  - Does not need to include functionality, but should include a navbar
  - Include one table
  - Include at least one list (ordered or not)
  - Styling must be done in an appealing and organized way

### Submission:

Share with me a .zip file that includes .html, .css or any other file extension needed for your project to be completed.

You will use relative file paths for any included files and an absolute path for any external files (.png on the internet).

The file name needs to be “rojsip\_812\_lastname\_firstname” .

Eg: rojsip\_812\_kaur\_pushpinder

Share it on the google drive folder:
