

Individual Web Design Project

Assignment:

- Create a website for yourself. Make a portfolio page that is meant to inform people about yourself.
- Assignment is due Fri Aug 29, 2019

Specs:

- The project must follow certain specifications:
 - o 2+ pages
 - o Styled with CSS and/or Bootstrap (I want to see an appealing website)
 - o Does not need to include functionality, but should include a navbar
 - o Include one table
 - o Include at least one list (ordered or not)
 - o Styling must be done in an appealing and organized way

Submission:

Share with me a .zip file that includes .html, .css or any other file extension needed for your project to be completed.

You will use relative file paths for any included files and an absolute path for any external files (.png on the internet).

The file name needs to be “rojsip_812_lastname_firstname” .

Eg: rojsip_812_kaur_pushpinder

Share it on the google drive folder:
